Having constructed their new Honda automobile dealership in Pompton Plains, N.J., the owners of Route 23 Honda once again called upon Klæ Construction, this time to build a brand new dedicated, certified used car sales center at 590 Route 23 North, just a 1/4-mile south of the dealership.

An existing building was demolished on the site to make room for the new 6,000-square-foot, two-story structure that features comfortable, relaxing sales consultant areas,

a customer lounge, bathrooms and a refreshment center—all designed to make the used car shopping experience as pleasant, easy and enjoyable as possible.

The second floor houses two administrative offices, employee break room, training area, computer room and bathrooms. Site improvement work included grading, storm drainage, and all new paving, curbing, landscaping and lighting. Architectural services were provided by The Mylan Architectural Group of Verona, N.J.
