KLAE CONSTRUCTION COMPLETED THE CONVERSION OF an abandoned supermarket building, on Bartley Flanders Road, in Flanders New Jersey, into this brand new ShopRite Supermarket.

Additions to the existing 52,000 square foot building include a 2,800 square foot receiving area, 2,600 square foot loading dock area with vendors ramp, new produce receiving dock, and expanded mechanical mezzanine.

The roof was raised to accommodate a 3,200 square foot mezzanine for offices, employee lounge, training room and

toilet rooms, and a 550 square foot addition for two stairwells and an elevator was built to service the new area. Interior renovations feature a new pharmacy, customer service area, customer rest rooms, and new produce prep and storage coolers. All new floor finishes and decor compliment the remodeled seafood department, bakery, prepared foods and appetizer areas.

The new and modified heating, cooling and ventilation systems and the all new lighting provides customer comfort in a contemporary, efficient shopping environment.
