KLAE CONSTRUCTION COMPLETED THIS REMODELING Project for Pathmark Stores Inc., to the store on Route 15 in Woodport, NJ. The expansion and renovation project, totaling 50,000 square feet, included a 12,000 square foot addition with a machine room mezzanine and a completely new building facade.

Our experience in completing over 100 supermarket projects was instrumental in the scheduling and phasing of the construction process to ensure the safety and convenience of customers in the 24-hour shopping environment.

The interior was completely gutted and remodeled in phases, with all new departments and food preparation rooms and the addition of a seafood section, banking facilities and a new, expanded pharmacy.
