

## US Post Office

Oak Ridge, NJ

GC: Klæ Construction

New construction

UNDER CONTRACT WITH EASTERN PROPERTIES LP, Klæ Construction completed a new 7,000 sf United States Post Office facility covering 2.5 acres on Oak Ridge Road in Oak Ridge, N.J.

The new building doubles the workspace of the employees in a state-of-the-art facility. An added benefit to the community is the improved vehicle access to the post office, making it safer and more convenient to use.

The new building, which supports 27 employees working nine mail routes and delivering 30,000 pieces of mail per day, replaces a crowded, leased space in a building adjacent to the new site.
