

Project Profile: Automotive

Ray Catena BMW Carwash

Greenburgh, NY

Architect: MJM Services

Scope of Work: Addition

Klae Construction recently completed a 2,200 ft² building addition to Ray Catena's BMW Service Center in Greenburgh, NY.

The scope of work included a 400 ft² mezzanine, a structural steel frame, and concrete block walls. A fully automated car wash system with a recessed conveyor was installed for the building to function as the carwash for the service center.
