

Project Profile: Commercial-Industrial

Esco Optics

Jefferson Township, NJ

Architect: Stephen V. Carrozza

Scope of Work: Renovation

Klae Construction renovated the 12,000 ft² existing building. Construction included an addition of a 3,000 ft² mezzanine office space, passenger elevator, and a parts elevator. The second-floor offices include a conference room, rest rooms, and break rooms. Improvements also include a 2,000 amp electric services; heating and air conditioning systems; and a fire sprinkler system.
