

Project Profile: Supermarkets

Mansfield ShopRite

Mansfield, NJ

Architect: Donnelly Architecture, LLC

Scope of Work: Renovation

RoNetco Supermarkets, Inc. called on Klæ Construction to expand and renovate the existing ShopRite Supermarket in Mansfield. This is the third time that Klæ has had the pleasure of working in the Mansfield location.

The new design included a takeover space of approximately 4,000 square feet. All departments were completely reconstructed and new flooring was installed throughout the produce, deli, bakery, seafood, and dairy areas along with new deli, prepared foods, meat and bakery display cases.

The construction also contained a brand new seating area with raised floors so shoppers can enjoy the new fresh, ready-to-eat food prepared within the supermarket. Customers can also enjoy fresh Sushi immediately as they enter the store. To complete the overall look of the store, new décor was applied throughout the interior as well as the exterior store—an upgrade that delivers an overall cohesive design.
