

BUILDING RELATIONS

Company News & A Little Light-hearted Information from Klæe Construction

Let Us Help

Whether you intend to negotiate your construction project or award it from a select list of competitive bidders, Klæe Construction wants to help. For more than 30 years, we have been providing general contracting services to private clients, as well as assisting owners and architects with building plan evaluations for constructability, cost and schedule. We are a versatile firm with a diverse base of clientele and experience in constructing:

- Office Buildings
- Banks
- Churches
- Automobile Dealerships
- Supermarkets
- Retail Stores
- Professional Offices
- Golf and Country Clubs
- Manufacturing Facilities
- Warehouses
- Medical and Healthcare Facilities
- Laboratories

Klæe Construction's ongoing commitment to quality and total customer satisfaction is exemplified by our longstanding relationships with our clients.

Smile More Dentistry, Tappan, N.Y.

New Facility For Washington Dental Associates

Klæe Construction recently completed the renovation of a vacant bank building at 140 Oak Tree Road in Tappan, N.Y., for use as the new Smile More Dentistry office. The project, which totaled 5,000 square feet of space, included complete demolition of the existing building interior and construction of a two-story, glass-clad addition housing an elevator and vestibule areas.

The first floor features six procedure rooms supported by reception and waiting areas, business office, consultation room, X-ray room, sterilization area and bathrooms. On the second floor is the laboratory, staff room, IT area, mechanical room, and utility system rough-ins for six future procedure rooms and a bathroom.

This new facility is an expansion of Washington Dental Associates of Bergenfield, N.J., a unique practice that has created an exceptional dental experience for its patients, earning it the reputation of being the "Mercedes Benz" of dentistry within its community.

Goddard School, Fairfield, N.J.

New Goddard School In Fairfield

Upon completion of a cost-saving analysis of the prototype exterior design, the budget was met, changes were made and Klæ Construction was awarded the contract for construction of a new 8,000-square-foot Goddard School on Little Falls Road in Fairfield, N.J.

The scope of work included complete site development with lot clearing, earth fill, new underground utilities, storm water detention basin and underground recharge system, retaining walls, paving, lighting and landscaping.

Built to strict specifications, the facility conforms to the extremely high standards of cleanliness and security required by Goddard Systems Inc., the franchisor of the Goddard School, for its early childhood education facilities.

Making learning fun is at the core of the Goddard program. Each day, guided by highly trained child care professionals, a child selects activities and materials to explore and discover in an imaginative and creative way. The focus on developing communication, collaboration, critical thinking and creativity leads to a child's learning independence and school readiness.
